Course Structure

Lecture-based learning – Students will learn the beginning skill sets of music theory and aural skills then apply them to everyday playing for mastery. Lecture time is limited for this course.

Discussion-based learning – Students will engage in teacher driven discussion topics as a group. The topic will vary depending on the literature being played and skills required for that particular piece. Students will be expected to participate in discussions frequently throughout the year.

Activity and lab-based learning - Students will be expected to complete the daily activities given to them. This is how most of our classroom time will be used. Academic Dishonesty Policy

It is expected that students uphold the values of academic integrity. Honest and fair practices

must be used in the completion of tests, tasks, or projects assigned in band class. Academic dishonesty includes, but is not limited to, using others' ideas or words without proper citations, copying another student's homework assignments, forging a parental signature, turning in an assignment not completed by the individual turning it in, and/or cutting and pasting from the Internet. Students found plagiarizing, copying, or cheating in any way will receive an automatic zero and have a phone call made to their parents. In addition, a report of the incident will be given to the student's counselor. Students may receive a permanent note on their academic record reflecting their indiscretion and receive an F on the assignment in question and possibly for the nine weeks grade.
