Dissatisfied with the status quo, Dr. Kevin Fleming has dedicated over two decades advancing career education as a business faculty member, instructional Dean, and college Vice President. He is a systems thinker who plays by the rules, while also changing them.

An educator and storyteller, he has produced dozens of viral animation videos including Success in the New Economy, and his TEDx, igniting discussions in Board rooms and dining rooms.

A scholar and researcher, he is the author of four books including the educational bestseller, (Re)Defining the Goal, and the inspirational title, Words are Your Superpower.

An energetic innovator, he is the Founder and CEO of Catapult, which delivers to educators the world's best thought leaders, through hybrid-flexible masterclasses, that truly inform, motivate, and transform our institutions.

A change agent and tireless student advocate, he has secured and managed over \$85 million in competitive grants to increase economic and educational opportunity.

Dr. Fleming is an eagle scout, father, true life-long learner, and recovering academic elitist. He is passionate about helping all learners intentionally equip their potential and enter the labor market with a competitive advantage.
